BASIC RANGE SAFETY: Remember the club ranges are not 'private,' like behind the barn at home. The club owns the ranges which are used by 400 + members. Before shooting, go down range and check to insure that no one is in or working in the backstop area or fishing in the derby pond prior to shooting. If it is not light enough to see if someone is downrange, it is too dark to be shooting and more critical to insure no one is downrange. No matter how long you have been doing it wrong, safety requires that you learn to do is right or eventually a problem will occur. Know your target and what is beyond. FOLLOW THE RANGE RULES they are there to insure everyone's safety. It is the shooters legal responsibility to insure that no one is down range before shooting.
