

Darr Report July 2025

- Gravel and or grindings were discussed and a request was turned in for the Darr.
 - As noted in the request, the total amount of funds to be taken from the Darr Budget for gravel or grindings is not to exceed \$1000 for this year.
- Mowing Plan for this year has been updated as there has been no activity on the burning by the feds.
 - Does not appear that we will get a burn done.
 - Therefore we will be doing more mowing than original plan for the year to try to stay in compliance with contract.
 - Diesel fuel tank was filled end of June.
- Equipment updates:
 - Open Issues at this time
 - Batwing PTO Coupler Spring Pin is very hard to engage/Disengage. Will look at replacing or repairing yoke asap
 - Allis is still down with motor issues.
- Fenwick Marina representatives have contacted me and expressed they plan to donate funds to go towards a veterans hunt again this year.
 - This was not a solicited donation, they contacted me.
 - I am asking for approval to accept any donations from Fenwick Marina that they would like to make, to be utilized for future veterans hunts.
- Weekly Saturday work parties continue through the year.
 - Need Coordinators and volunteers to organize and lead those days.
 - Lunch and or cookout will be at most Saturday work parties.
 - Any body can organize a work party theme if there is something you want to do that isn't getting done.....
 - Get with me or the Coordinator of the involved area to get the plan approved and we will get it scheduled

Thanks to all that have helped out....
